The Community Love Seat

This beautiful and inviting chair sits in the Partnership area of a business whose employees deal with people and powerful emotions every day. The company has become a pillar of the community, bringing a loving touch, an encouraging word, and a steadying hand to every transaction.

Note:

> For those of you unfamiliar with Feng Shui, the Partnership area is the far right, back corner of the building or property.

The chair provides a place for employees and clients to feel secure, create consensus, understand what is needed, think through a problem, and let worry disappear. Its placement allows for a moment in time to commit, to focus, and to take action in the service of others—the essence of our Earth in balance.
